

LAB 2 – INFIX TO POSTFIX

Question

Write a program to convert a given valid parenthesized infix arithmetic expression to a postfix expression.

The expression contains:

- Single-character operands
- +
- -
- *
- /

```
"C:\BE 3rd SEM\DS Using C pr  ×  +  ∨  
Enter a valid infix expression: (A+B)/(A*V)+(S-D)  
Postfix expression: AB+AV*/SD-+  
  
Process returned 0 (0x0)   execution time : 28.244 s  
Press any key to continue.
```
